HOW TO USE THE BIBLE READING GUIDE

Purpose

The purpose of the Bible Reading Guide (BRG) is to provide you with a variety of methods that will **encourage and guide your reading of Scripture**. Using these approaches, you can develop a personalized and manageable program that will keep your interest level high and give you a satisfying breadth of exposure to the Word of God.

How to Use It

Choose one or more of the following ten methods of Bible reading. **Be flexible** and feel free to change methods and combinations of methods as you desire. You may choose to integrate one method or combination with your daily prayer time and to use another method or combination at another time of the day.

Suggestions

1. Be sure to **choose a system that works for you**. If you find yourself getting into a rut, change your system. Many people get bored with reading the Bible because they get locked into one method.
2. Consider making a **personal commitment** to reading at least a chapter of the Bible a day.
3. Often the best times for Bible reading are the first thing in the morning and/or just before going to sleep.
4. If you do not have another preference, we suggest you begin your Bible reading with the 365 key chapters of the Bible (method 1 in the BRG).
